

Opendock

Overview

Tuesday Morning has implemented a new online appointment scheduling system called Opendock! Carriers will now be able to schedule delivery appointments for our distribution centers and many others at www.opendock.com.

It's easy, you can schedule in less than 5 minutes by following these steps:

- Go to www.opendock.com
- Click "Register for FREE"
- Enter your name and e-mail and create a password
- Click the "Find Warehouse" button and search for "Tuesday Morning"
- Click the Schedule button

After clicking the schedule button you will be asked questions to help find an appointment for our warehouse. Common questions are:

- PO / TM Load#
- # of Pallets
- Inbound / Outbound
- Full Truckload / LTL (Consolidated Truck will need every load #)

After completing the questions, select your desired date and appointment time. Then finalize the appointment and it will be scheduled with the warehouse while sending you a confirmation e-mail with all necessary appointment details.

Benefits

One username and one password for thousands of warehouses. Eliminate the need to have usernames, passwords, and links for hundreds of different warehouse locations to schedule an appointment.

Visibility to all scheduled appointments across different companies and warehouse locations through a single view on the My Appointments page.
